

Virtual Collaboration Webinars & Webcasting Solutions

Transition your Live Meeting to a Virtual Solution.

We Power Your Virtual Meeting Experiences.

The Virtual Meeting Solution provided by AMI ensures attendees have a seamless user experience. When transitioning to a virtual meeting, AMI carefully balances the overall meeting strategy while maintaining best in class, redundant technologies to ensure success. This solution includes Webinar formats (for smaller collaborative groups) or Webcasts (for larger one to many scenarios) in one simplified pricing model. As with any program, a custom budget will be provided to the meeting champion based on the meetings specific needs. With AMI's global footprint, staff and AV support in 60+ countries, Virtual Meetings can be supported in all markets.

A Global End-to-End Solution

Panels

The custom HTML panel gives the webcast host maximum flexibility to incorporate familiar functionality into their webcasts, increasing audience engagement. The HTML embed code allows web-based applications (such as Digg, Reddit, Pinterest, etc.) to become a part of the webcast experience. In addition to being able to pull in web-based applications, these panels allow for stylized branding and personalization via custom HTML/CSS.

Media Player	Speaker Bio(s)	Course Tracker	LinkedIn
Slides	Images	Blog Posts	Share
Chapters	Links	Message Board	Restore
Group Chat	Yammer	Email the Speaker(s)	
Q&A	Text/HTML	Invite a Friend

What our clients say:

"AMI is an indispensable strategic partner to my organization, and I count on them to feed me new ideas—and pull them off."

"I consider AMI an extension of my team, and I know they have my priorities and interests top of mind at every turn."

MARS

"We never could have pulled this off without AMI. The team was invaluable."
